

Safety Tips

Clean Neighborhood Project

A Keep Norman Neat Effort

Share these tips with your team to ensure a safe and impactful event:

- The Buddy System is best! Keep a buddy with you at all times. Work in groups of at least two people.
- Be aware of traffic when entering streets, and do not block it. Everyone working near a street should wear a safety vest.
- Drink water! Watch for signs of dehydration or exhaustion. Be sure to rest and get some shade from time to time.
- Do not pick up broken glass or sharps. They could cut you, cause disease, and/or cut your trash bag. Let us know where that kind of stuff is, and we will take care of it as soon as we can.
- Be sure of your footing when walking in tall grass or uneven terrain. No one wants an injury!
- Be aware of animals, insects and vegetation that could be harmful, like snakes, spiders and poison ivy, especially in areas of lots of vegetation!
- Mostly, though, have a great time improving your community!
