

# The Application Process

After your group reviews the terms of the agreement, you will choose three alternate City street locations and select a liaison to work with the program coordinator. You then complete the application and mail or bring it to the Traffic Control Division, 1311 Da Vinci Street, P.O. Box 370, Norman, Oklahoma 73070.

Then the program coordinator will contact you with your Adopt-A-Street information, set up a safety training session for your group and you will be ready to begin.

# What is Adopt-A-Street?

The Adopt-A-Street program is a beautification partnership between the City of Norman and its citizens to remove litter from streets. The goal is to keep our City cleaner and safer.

## Here's the deal:

Organizations will Adopt-A-Street for a period of 2 years and recognition signs will be installed on each end of the group's adopted mile of City street. You and your group pick up litter from your adopted mile at least every 60 days. The City provides trash bags, safety vests to wear while you work, as well as, safety training and traffic control devices. When litter collection is performed, the City will pick up and dispose of your filled trash bags.

## Who can help?

All groups whose members are at least 11 years old are welcome to take part in this commitment. Neighborhood associations, civic organizations, businesses or any group willing to help the environment and appearance of our City by keeping litter off the streets can sign up.

## How do I start?

Contact the Public Works Department's Traffic Control Division at 329-0528 to get an Adopt-A-Street application and adoption agreement. The application process will take about four to six weeks.
