Bidders **should** submit one original and one duplicate Form for Bidders and Proposals. Discount and delivery date (if any) **must** be plainly stated on the Form for Bidders and Bidders Proposal.

The Affairs of the City of Norman, whether in the conduct of its governmental or proprietary functions, involve the health, safety and welfare of the public; and because the item(s) specified are necessary and proper for the conduct of said affairs, any delay in the delivery of the item(s) being bid can jeopardize the health, safety and welfare of the public, and can result in the incurring of additional expenses to the City. For these reasons, it is understood by the bidder that the duration of time from the date of the City of Norman's Purchase Order to the date of delivery of the item(s) being bid herein is considered to be an integral part of this bid and **may** be considered in awarding the contract.

All bids **will** be awarded by Section or Sections whichever is in the best interest of the City. The City of Norman reserves the right to reject any and all bids, or parts of bids, and to waive any or all formalities of the bidding process. All bids are public records and are available during regular office hours.

When submitting bids, corporate entities are required to comply with State law regarding authorized signatures:

- State statute requires that bids “be signed by the chair or vice-chair of the Board of Directors, or the President, or by a Vice President, and attested by the Secretary or an Assistant Secretary; or by officers as may be duly authorized to exercise the duties...” 18 O.S. § 22
- However, if some other official with the corporation, such as a secretary signing a document, such signature needs to be accompanied by a certificate or a copy of a resolution adopted by the Board setting forth the authority of that individual to execute a contract.
- With respect to limited liability corporations, every manager is an agent of the company for the purpose of business and binds the limited liability company. Therefore, instruments and documents shall be valid and binding upon the limited liability company if executed by one or more of its managers. 18 O.S. § 32
- As set forth above when submitting bids, certification adhering to the state statutes should accompany documents being turned in for review.

Any interpretation of the proposed documents will be made only by an Addendum issued and a copy of such Addendum will be mailed or delivered to each person receiving a set of such documents. The City will not be responsible for any other explanations or interpretations of the proposed document.

#### 202.03 – Examination of Documents and Site of Work

## SECTION 203

### AWARD AND EXECUTION OF CONTRACT

#### 203.01 – Consideration of Proposals

After the proposals are opened, those proposals containing unit prices will be tabulated for comparison on the basis of the quantities shown in the approximate estimate. Until the final award of the Contract, the City reserves the right to reject any or all proposals, to waive technicalities and to advertise for new proposals or proceed to do the work otherwise when the best interest of the City will be promoted thereby.

#### 203.02 – Award of Contract

The City reserves the right to withhold the award of the Contract for a reasonable period of time from the date of opening the proposals and no award will be made until the necessary investigations are made as to the responsibility of the Low Bidder. No Contract will be awarded until at least twenty-four (24) hours after opening the proposals. The awarding of the Contract shall give the Bidder no right of action or claim against the City upon such Contract until the execution of the Contract shall have been completed and the Contract delivered to the Contractor. The Council reserves the right to award all or any portion of the work.

#### 203.03 – Return of Proposal Guaranty

As soon as the proposal prices have been compared, the City may, at its discretion, return the proposal guaranties accompanying those proposals which, in its judgment would not be considered in making the award. After the award is made, only the successful Bidder’s bid bond will be retained until the required Contract and Bonds have been executed, after which it will be returned to the Bidder. Should the awarding of the Contract be delayed more than thirty (30) days, all Bidders’ bonds will be returned, unless such delay is from causes beyond the control of the City, and, in such event, the proposal and Bidder’s bond, of any Bidder, will be returned at the Bidder’s option.

#### 203.04 – Surety Bonds

With the execution and delivery of the Contract, the Contractor shall furnish and file with the City in the amounts required, the following surety bonds:

- (a) A good and sufficient Performance Bond in an amount equal to one hundred percent (100%) of the approximate total amount of the Contract, guaranteeing the full and faithful execution of the work and performance of the Contract and for the

protection of the City and all property owners interested against any damage by reason of negligence of the Contractor, or the improper execution of the work or the use of inferior materials.

- (b) A good and sufficient Statutory Bond in an amount equal to one hundred percent (100%) of the approximate total amount of the Contract, guaranteeing payment for all labor, materials, and equipment used in the construction of the improvements.
- (c) A good and sufficient Maintenance Bond in an amount equal to one hundred percent (100%) of the total amount of the Contract, guaranteeing the maintenance in good condition of such improvements for a period of one (1) year from and after the time of the completion and acceptance by the City of said improvements.

No Surety will be accepted who is now in default or delinquent on any bond or who is interested in any litigation against the City. All bonds shall be made on forms furnished by the City and shall be executed by surety companies licensed to do business in the State of Oklahoma and acceptable to the City. Each bond shall be executed by the Contractor and the Surety. Should any Surety on the Contract be determined unsatisfactory at any time by the City, notice will be given to the Contractor to that effect, and the Contractor shall forthwith substitute a new Surety or Sureties satisfactory to the City. No payment will be made under the Contract until the new Surety or Sureties, as required, have qualified and been accepted by the City. The Contract shall not be operative nor shall any payments be due until approval of the bonds has been made by the City.

#### 203.05 – Execution of Contract

The person or persons, partnership, company, firm, or corporation to whom the Contract is to be awarded, shall sign the necessary agreements, entering into the required Contract with the City and shall execute and deliver the required Bonds.

No Contract shall be binding on the City until it has been approved by the City Attorney, executed by the City, and delivered to the Contractor.

#### 203.06 – Failure to Execute Contract

Upon failure of the Bidder to execute the required Bonds or to sign the required Contract after the Contract is transmitted to the Contractor, he will be considered to have abandoned his proposal. By reason of the uncertainty of market prices of the materials and labor and it being impracticable and extremely difficult to fix the amount of damages to which the City would be put by reasons of said Bidder's failure to execute said Bonds and Contract, the proposal guaranty accompanying the proposal shall be the agreed amount of damages which the City will suffer by reason of such failure on the part of the Bidder and shall thereupon be retained by the City as liquidated damages. The filing of a proposal will be considered as an acceptance of this provision.

### SECTION 204

#### SCOPE OF WORK

##### 204.01 – Intent of Specifications

The intent of the specifications is to prescribe a complete work or improvement which the Contractor undertakes to do, in full compliance with the Plans, Specifications, Special Provisions, Proposal, and Contract. The Contractor shall do all work as provided in the Special Provisions, Plans, Specifications, Proposal, and Contract, and shall do such additional extra and incidental work as may be considered necessary to complete the work in a satisfactory and acceptable manner. Contractor shall furnish all labor, materials, tools, equipment and incidentals necessary to the prosecution of the work, unless otherwise specified.

#### 204.02 – Special Provisions

#### 204.03 – Increased or Decreased Quantities of Work

The City reserves the right to alter the quantities of the work to be performed or to extend or shorten the improvement at any time when and as found necessary, and the Contractor shall perform the work as altered, increased or decreased, at the Contract unit prices. No allowances will be made for any change in anticipated profits nor shall such changes be considered as waiving or invalidating any condition or provision of the Contract.

This provision shall not be so construed as to permit the Contractor to perform additional work not included or contemplated in the original proposal.

#### 204.04 – Alterations of Specifications

The City reserves the right to make such changes in the character of the work as may be necessary or desirable to insure completion of the work in the most satisfactory manner, provided such changes do not materially alter the original plans and specifications or change the general nature of the work as a whole. Such changes shall not be considered as waiving or invalidating any condition or provision of the Contract.

#### 204.05 – Extra Work

When any work is necessary to the proper completion of the project for which no prices are provided in the Proposal or Contract, the Contractor shall do such work, but only when and as ordered by a change order in writing by the Director and with the prior approval of the City Council. Payment for extra work will be made as hereinafter provided.

#### 204.06 – Final Cleaning Up

Upon completion of the work and before acceptance and final payment will be made, the Contractor shall clean and remove from the site of the work surplus and discarded material, temporary structures, and debris of any kind. Contractor shall leave the site of the work in a neat

and orderly condition. Waste materials removed from the site of the work shall be disposed of at locations satisfactory to the Director.

## SECTION 205

### CONTROL OF THE WORK AND MATERIALS

The Director shall decide all questions which arise as to the quality and acceptability of materials furnished, work performed, manner of performance, rate of progress of the work, interpretation of the specifications, acceptable fulfillment of the Contract, compensation, mutual rights between Contractors under these specifications, and suspension of the work. The Director shall have the right to establish any sequence or priority of operation in the interest of desirable cooperation with other work. The Director shall determine the amount and quality of work performed and materials furnished and their decisions and estimates shall be final. The Director's estimate in such event shall be a condition precedent to the right of the Contractor to receive money due to them under the Contract.

#### 205.02 – Detail Shop and Working Drawings Furnished by Contractor

The Contractor shall submit to the Director for approval, such additional shop and working drawings of structures or equipment as may be required and, prior to the approval of such drawings by the Director, any work done or materials ordered shall be at the Contractor's risk. The Contract price shall include the cost of furnishing such drawings.

#### 205.03 – Coordination of Specifications, Proposal, and Special Provisions

These Plans, Specifications, the Proposal, Special Provisions, and all Supplementary Documents are intended to describe a complete work and are essential parts of the Contract. A requirement occurring in any of them is binding. In case of discrepancies, Special Provisions shall govern over both General and Standard Specifications. The Contractor shall take no advantage of any apparent error or omission in the Specifications, and the Director shall be permitted to make such corrections or interpretations as may be deemed necessary for the fulfillment of the intent of the Plans and Specifications. In the event the Contractor discovers any apparent error or discrepancy, they shall immediately call such error or discrepancy to the attention of the Director.

#### 205.04 – Cooperation of Contractor

Three (3) sets of plans and specifications will be furnished by the Contractor as follows: One (1) office copy, one (1) for the Field Superintendent, and one (1) copy for job use. The Contractor, however, shall have a set of plans and specifications available at all points where a separate construction crew is working.

The Contractor shall give to the work the consistent attention necessary to facilitate the program thereof, and shall cooperate with the Director and their inspectors and with other contractors in every way possible. The Contractor shall provide a competent Superintendent on the work site at

all times who is fully authorized as their agent on the work. Such Superintendent shall be capable of reading and thoroughly understanding the plans and specifications and shall receive and fulfill instructions from the Director or their representative. The Contractor and his Superintendent shall provide all reasonable facilities to enable the Director and their inspectors to inspect the workmanship and materials entering into the work.

#### 205.05 – Measurements

No extra charge or compensation will be allowed on account of differences between actual dimensions and the measurements indicated in the specifications; and any difference which may be found shall be submitted to the Director for considerations before proceeding with the work.

#### 205.06 – Storage of Materials

Materials shall be stored so as to insure the preservation of their quality and fitness for the work. When directed by the Director they shall be placed on wooden platforms or other hard, clean surfaces, and not on the ground, and shall be placed under cover when directed. Stored materials shall be located so as to facilitate prompt inspection.

#### 205.07 – Inspection

The Contractor shall furnish the Director with every reasonable facility for ascertaining whether or not the work as performed is in accordance with the requirements and intent of the specifications. If the Director requires, the Contractor shall at any time before acceptance of the work, remove and uncover such portions of the unfinished work as may be directed, for inspection. After inspection, the Contractor shall restore said portions of the work to the condition required by the specifications.

Should the work thus exposed on examination prove acceptable, the cost of uncovering or removing and replacing of the covering or making good the parts removed will be paid for as “Extra Work”. Should the work so exposed or examined prove unacceptable, the cost of covering or removing shall be at the Contractor’s expense, provided that where ample notice of the intention to complete or cover up the work was not given by the Contractor to the Director, then the cost of the uncovering or removing and the replacing of the covering or making of the parts removed shall be borne by the Contractor regardless of whether or not the work examined proved acceptable. Any work done or materials used without suitable supervision or inspection by the Director may be ordered replaced at the Contractor’s expense.

#### 205.08 – Removal of Defective and Unauthorized Work

All work which has been rejected or condemned shall be repaired, or, if it cannot be satisfactorily repaired, it shall be removed and replaced at the Contractor’s expense. Defective materials shall be removed immediately from the site of the work.

#### 205.09 – Correction of Work After Final Payment

Neither the final certificate nor any provision in the Contract Documents shall relieve the Contractor of responsibility for faulty materials or workmanship, and, unless otherwise specified, the Contractor shall remedy any defects due thereto and pay for any damage to other work resulting therefrom, which shall appear within a period of one (1) year from the date of substantial completion. #### 206.14 – Public Liability and Property Damage Insurance

The Contractor shall take out and maintain during the life of this Contract such public liability and property insurance as will protect them and any subcontractor performing work covered by this Contract, from claims for damages or personal injury, including accidental death, as well as from claims from property damages, which arise from operations under this Contract, whether such operations are by himself or by any subcontractors or by anyone directly or indirectly employed by either of them and the amounts of such insurance shall be as follows:

\$1,000,000 for injuries, including accidental death, or  
\$25,000 for one accident.

#### 206.15 – Proof and Carriage of Insurance

The Contractor shall furnish the City with satisfactory proof of carriage of the insurance required.

#### 206.16 – Liens

Neither the final payment or any part of the retained percentage shall become due until the Contractor, if required, shall deliver to the City a completed release of all liens arising out of this Contract, or receipts in full in lieu thereof, and, if required, in either case, an affidavit that so far as they had knowledge of information of the releases and receipts include all labor and material for which a lien would be filed; but the Contractor may, if any subcontractor refuses to furnish a release or receipt in full, furnish a bond satisfactory to the City, to indemnify them against any lien. If any lien remains unsatisfied after all payments are made, the Contractor shall refund to the City all monies that the latter may be compelled to pay in discharging such a lien, including all costs and a reasonable attorney's fees.

#### 206.17 – Transportation Tax

Under the provisions of Section 3475 (b) of the Internal Revenue Code, as amended, the State of Oklahoma, its agencies and political subdivisions are exempt from payment of the three percent (3%) transportation tax levied by Subsection (a) of Section 3475, in either of the following cases:

- (a) When the property (equipment, goods, materials, etc.) is consigned to the State, its agencies, or political subdivisions, or,
- (b) When such property is consigned to the State, its agency, or political subdivision in care of the Contractor.

It is the policy of the City to take advantage of the savings afforded by the above-mentioned exemption. To this end, the Contractor agrees to comply with the following:

“In determining cost of materials and computing freight charges, do not include 3% Federal Transportation of Property Tax. Section 3475 (b) of the Internal Revenue Code, as amended, exempts the City from this tax. The successful Bidder will be furnished an appropriate exemption certificate form by the contracting authority, and will be authorized to have all shipments of construction materials and equipment entered into this Contract consigned to the City in care of himself, thereby enabling him to take advantage of the above mentioned exemption.”

NOTE: Said exemption will not apply to shipments of fuel, lubricants, spare parts, or items of construction equipment belonging to the Contractor which will not become the property of the City.

#### 206.18 – Sales Tax Exemption

The City shall, by resolution, authorize the Contractor to act as purchasing agent for the City, solely for the purpose of purchasing, on a tax-exempt basis, materials and tangible personal property to be used exclusively in the work herein specified during the life of the Contract.

It is the policy of the City to take advantage of the savings afforded by the above-mentioned exemption. To this end, the contractor agrees to comply with the following:

“In determining cost of materials and tangible property to be used exclusively in the work herein specified, do not include sales tax. The successful bidder shall be furnished an appropriate exemption resolution form by the City.”

### SECTION 207

#### PROSECUTION AND PROGRESS

##### 207.01 – Subletting of Work

The City will not recognize any subcontractor on the work. The Contractor shall, at all times when work is in operation, be represented either in person or by a qualified superintendent or other designated representative. If the Contractor sublets the whole or any part of the work to be done under this Contract, he will not, under any circumstance, be relieved of his responsibility and obligations. All transactions of the Director shall be with the Contractor. Subcontractors shall be considered only in the capacity of employees or workers and shall be subject to the same requirements as to character and competency. The Contractor shall not employ any subcontractor on the work without prior written approval of the Director and the City Manager.

##### 207.02 – Assignment of Contract

The Contractor shall not assign, transfer, convey, or otherwise dispose of the Contract or their right, title, or interest in or to the same or any part thereof without the previous consent of the Director in writing, approved by the City Council and concurred in by the Surety. If the Contractor does, without such previous consent, assign, transfer, convey, sublet, or otherwise dispose of the Contract or their right, title, or interest therein or any part thereof to any person or persons, partnership, firm or corporation, or by bankruptcy, voluntary or involuntary, or by assignment

under the insolvency laws of any state, attempt to dispose of the Contract or make default in or abandon said Contract, then the Contract may, at the option of the City, be revoked and annulled unless the Surety shall successfully complete said Contract and any monies due or to become due under said Contract shall be retained by the City as liquidated damages for the reason that it would be impracticable and extremely difficult to fix the actual damages.

#### 207.03 – Prosecution of Work

The Contractor shall begin the work to be performed under the Contract within the time limit stated in the Advertisement, Proposal, and Contract, and shall conduct the work in such a manner and with sufficient equipment, materials, and labor as is necessary to insure its completion within the time limit set forth in the Advertisement, Proposal, and Contract. The sequence of all construction operations shall at all times be as directed by or approved by the Director. Should the prosecution of the work for any reason be discontinued by the Contractor, they shall notify the Director at least twenty-four (24) hours in advance of resuming operations.

#### 207.04 Character of Workers and Equipment

The Contractor shall employ such superintendents, foreman, and workers as are careful and competent and the Director may demand the dismissal of any person or persons employed by the Contractor, in, about, or on the work, who shall misconduct themselves or be incompetent or negligent in the proper performance of their duties or neglect or refuse to comply with the directions of the Director, and such person or persons shall not be employed again thereon without the written consent of the Director. Should the Contractor continue to employ or again employ such person or persons without the written consent of the Director, then the Director may withhold all estimates which are, or may become due or may suspend the work until the compliance of such orders.

All workers shall have sufficient skill and experience to properly perform the work assigned to them. All workers engaged in special work or skilled work or in any trade shall have sufficient experience in such work to properly and satisfactorily perform it and operate the equipment involved, and shall make due and proper effort to execute the work in the manner prescribed in these Specifications. Otherwise, the Director may take action as above prescribed.

In the employment of labor, preference shall be given, other conditions being equal, to bona fide residents of the City of Norman, Oklahoma, but no other preference or discrimination among citizens of the United States shall be made.

The Contractor shall furnish such equipment as is considered necessary for the prosecution of the work in an acceptable manner and at a satisfactory rate of progress. All equipment (including rentals), tools, and machinery used for handling materials and executing any part of the work shall be subject to the approval of the Director and shall be maintained in a satisfactory working condition. Equipment on any portion of the work shall be used in a manner such that no injury on adjacent property will result from its use.

#### 207.05 – Day's Work: Working Hours

Work shall be done only during regular and commonly accepted and prescribed working hours. No work shall be done nights, Sundays, or regular holidays unless a special order or permit is given by the Director to do so. Eight (8) hours shall constitute a day's work and the Contractor shall observe all State laws and City ordinances governing hours of work.

207.06 – Time of Commencement and Completion

The contractor shall commence work within the time specified in the Contract and the rate of progress shall be such that the whole work will be performed and the premises cleaned up in accordance with the Contract, Plans, and Specifications within the time limit, where such time is stated in the Contract, unless an extension of time be made in the manner hereinafter specified.

207.07 – Extension of Time of Completion

The Contractor shall be entitled to an extension of time, as provided herein only when claim for such extension is submitted to the Director in writing by the Contractor within seven (7) days from and after the time when any alleged cause of delay shall occur and then only when such claim is approved by the Director and the City Council. In adjusting the Contract time for the completion of the project, all strikes, lockouts, unusual delays in transportation, or any condition over which the Contractor has no control and also any suspensions ordered by the Director for causes not the fault of the Contractor shall be excluded from the computation of the Contract time for completion of the work. If the satisfactory execution and completion of the Contract should require work or materials in greater amounts or quantities than those set forth in the Contract, then the Contract time shall automatically be increased in the same proportion as the cost of the additional work relates to the cost of the original contracted work. No allowance shall be made for delays or suspension of the prosecution of the work due to the fault of the Contractor.

207.08 – Failure to Complete Work on Time

The time of completion is of the essence of the Contract. For each working day that any work shall remain uncompleted after the time agreed upon in the Proposal and the Contract, or as automatically increased by additional work or materials ordered after the Contract is signed, or the increased time granted by the City for the completion of said work, the sum per day given in the following schedule, unless otherwise specified in the Proposal or Special Provisions, will be deducted from the monies due the Contractor, not as a penalty but as liquidated damages.

Amount of Contract	Amount of Liquidated Damages Per Day
Less than \$5,000 .....	\$15
\$5,000 and less than \$15,000 .....	\$20
\$15,000 and less than \$25,000 .....	\$25
\$25,000 and less than \$50,000 .....	\$30
\$50,000 and less than \$100,000 .....	\$35
\$100,000 and over .....	\$200

The sum of money thus deducted from such delay, failure, or noncompliance is not to be considered as a penalty but should be deemed, taken and treated as reasonable liquidated damages since it would be impracticable and extremely difficult to fix the actual damages.

## 207.09 – Suspension of Work and Annulment of Contract

The work or any portion of the work under Contract shall be suspended, immediately on written order of the Director or the City Council, a copy of such notice to be served upon the Contractor's Surety, or the Contract may be annulled by the City Council for any good causes, among others, of which special reference is made to the following:

- (a) Failure of the Contractor to start the work within the time limit specified.
- (b) Substantial evidence that the progress being made by the Contractor is insufficient to complete the work within the specified time.
- (c) Failure of the Contractor to provide sufficient and proper labor and equipment for properly executing the work.
- (d) Deliberate failure on the part of the Contractor to observe any requirements of these Specifications or to comply with any orders given by the Director, as provided for in these Specifications.
- (e) Failure of the Contractor promptly to make good any defects in materials or workmanship or any defects of any other nature, the correcting of which has been directed in writing by the Director.
- (f) Substantial evidence of collusion for the purpose of illegally procuring a Contract or perpetrating fraud on the City in the construction of work under Contract.

When work is suspended for any one of the causes itemized above, or for any other cause or causes, the Contractor shall discontinue the work or such part thereof as the Council shall designate, whereupon the Surety may, at its option, assume the Contract or that portion thereof which the Council has ordered the Contractor to discontinue and may, with the written consent of the Director, approved by the Council, sublet the work or portion of the work so taken over, provided, however, that the Surety shall exercise its option if at all, within fourteen (14) days after the written notice to discontinue work has been served upon the Contractor and upon the Surety or its authorized agent. The Surety, in such event, shall assume the Contractor's place in all respects and shall be paid by the City for all work performed by it in accordance with the terms of the Contract, and, if the Surety, under the provisions hereof, shall assume said entire Contract, all monies remaining due the Contractor at the time of their default shall thereupon become due and payable to the Surety as the work progresses, subject to all terms of the Contract.

In the event that the Surety does not, within the time herein before specified, exercise its right and option to assume the Contract, or that portion thereof which the Council has ordered the Contractor to discontinue, then the City shall have the power to complete, by Contract or otherwise as it may determine, the work herein described or such part thereof as it may deem necessary, and the Contractor hereby agrees that the City shall have the right to take possession of and use of the materials, plant, tools, equipment, supplies, and property of every kind provided by the Contractor for the purpose of their work and to procure other tools, equipment, and materials for the completion of same, and to charge to the account of the Contractor the expense incident thereto.

The expense so charged shall be deducted by the City out of such monies as may be due or may at any time thereafter become due the Contractor under and by virtue of the Contract or any part thereof. The City shall not be required to obtain the lowest bid for the work of completion of the Contract, but the expense to be deducted shall be the actual cost of such work. In case such expense is less than the sum which would have been payable under the Contract, if the same had been completed by the Contractor, the balance shall operate as liquidated damages, as herein above set out. In case such expense shall exceed the amount which would have been payable under the Contract if the same had been completed by the Contractor then the Contractor and his Surety shall pay the amount of such excess to the City on notice from the Council of the excess due. When any particular part of the work is being carried on by the City by Contract or otherwise under the provisions of this Section, the Contractor shall continue the remainder of the work in conformity with the terms of the Contract and in such manner as in no way to hinder or interfere with the performance of workers employed as above provided by the City.

#### 207.10 – Termination of Contract

The Contract will be considered fulfilled, save as provided in any bond(s) or by law, when all work has been completed, the final inspection made by the Director, and final acceptance and final payment made by the City.

### SECTION 208

#### MEASUREMENT AND PAYMENT

##### 208.01 – Measurement of Quantities

The determination of quantities of work acceptably completed under the terms of the Contract or as directed by the Director, in writing, will be made by the Director, or their assistants. When required by the Director, the capacity of all vehicles shall be plainly marked on each vehicle and the capacity or markings shall not be changed without permission of the Director.

##### 208.02 – Schedule of Values (For Lump Sum Contracts Only)

The Contractor will submit schedules, if requested, of unit prices of various parts of the work within ten (10) days after the Contract is awarded. The schedule shall show a complete breakdown of labor and materials required for the job, showing quantities and unit prices, aggregating the total of the certain items on which unit prices and quantities are desired which will be included in this schedule. This schedule when approved by the Director, shall be used as a basis for monthly payment to the Contractor. In applying for payments, the Contractor's statement shall be broken down in conformity to this schedule.

##### 208.03 – Scope of Payment

The Contractor shall receive and accept the compensation as herein provided in full payment for furnishing all labor, materials, tools, equipment, and incidentals; for performing all work contemplated and embraced under the Contract and for completing the work in an acceptable manner according to the Specifications.

The payment of any current or partial estimate prior to final acceptance of the work by the City shall in no way constitute an acknowledgment of the acceptance of the work nor in any way prejudice or affect the obligation of the Contractor to repair, correct, renew, or replace at his expense any defects or imperfections in the construction or in the strength or quality of the materials used in or about the construction of the work under the Contract and its appurtenances nor any damage due to or attributable to such defects, which defects, imperfections, or damage shall have been discovered on or before the final inspection and acceptance of the work. The Director shall be the sole judge of such defects, imperfections, or damage and the Contractor shall be liable to the City for failure to correct the same as provided herein.

#### 208.04 – Payment for Extra Work

The extra work done by the Contractor as authorized and approved by the Director and the City Council, will be paid for in the manner hereinafter described and the compensation thus provided shall be accepted by the Contractor as payment in full for all labor, materials, tools, equipment, and incidentals, and all superintendent's and timekeeper's services, all insurance, and all other overhead expense incurred in the prosecution of the extra work.

Payments for extra work will be made by one or more of the following methods:

- (a) Unit prices from the Bid Form, agreed on in writing by the Director and the Contractor and approved by the Council before said work is commenced, subject to all other conditions of the Contract.
- (b) A lump sum price agreed on in writing by the Director and the Contractor and approved by the Council before said work is commenced, subject to all other conditions of the Contract.
- (c) The actual costs including labor, materials, tools, equipment, and field supervision of such extra work plus fifteen (15%) percent, which fifteen (15%) percent is hereby understood and agreed to include all overhead expense and profits, when agreed upon in writing by the Director and the Contractor, and approved by the Council before said work is commenced; subject to all other conditions of the Contract.

The Contractor shall, on or before the tenth (10) day of the month succeeding that in which any extra work shall have been performed, file with the Director their claim and an account giving the itemized cost of such work and shall give the Director access to all accounts, bills, and vouchers relating thereto.

#### 208.05 – Partial Estimates

Between the 25th day and last day of each month, the Director will make an approximate estimate of the value of the work done and/or materials furnished during that month under these Specifications. Whenever the said estimate or estimates or work done and/or materials furnished since the last previous estimate exceed One Hundred Dollars (\$100) in amount, ninety percent (90%) of such estimated sum will be paid.

#### 208.06 – Payments Withheld

Should any defective work or material be discovered, or should a reasonable doubt arise as to the integrity of any part of the work completed prior to the final acceptance and payment, they will be deducted from the first estimate rendered after the discovery of such work an amount equal in value to the defective or questioned work and this work will be included in a subsequent estimate until the defects have been remedied or the cause for doubt removed.

#### 208.07 – Acceptance and Final Payment

Upon completion of any Contract and before final acceptance, a final inspection must be made by the Director to determine whether the work has been completed in accordance with the Contract and Specifications. All prior partial estimates and payments shall be subject to correction in the final estimate and payment. When the work has been so completed and certified to the Council, the work will be considered accepted and the final acceptance shall be executed and submitted.
