As with normal yard waste removal, the City of Norman Sanitation Department will pick up tree limbs that are placed in suitable containers of no more than 35 gallons in size or tied into bundles. Tree limbs in bundles should be limited to limbs no larger than 2 inches in diameter and no longer than 4 feet in length.

In order to address damage from last weeks winter storm, larger tree limbs may be placed at the curb for pick up by City Crews. Once limbs have been placed at the curb, residents needing this assistance should call the City of Norman Action Line at 366-5396 or the Parks and Recreation Department at 366-5472. Calls will be taken until 5:00 PM Friday February 12, 2010 to request this service. You will need to provide residents name, address and phone number. Larger limbs should be placed separate from smaller bundles and should not be placed on top of water or gas meters. Assistance in removing large tree limbs is intended to address only damage resulting from the recent ice storm.
