Emergency concrete panel repairs will begin on Monday, June 28, 2010, in the 2000 block of West Main Street in the east bound lanes. Street Maintenance crews will close the eastbound left lane to perform the first half of the repairs and will then close the right lane to complete the repairs. West bound traffic on Main Street will not be affected by the repair activities. Please direct any questions about this project to the Street Division at 329-2524.
