A Public Forum will be held on Thursday, March 15, 2012 beginning at 6:00 P.M. at Sooner Legends Inn and Suites, in the Sooner Room, located at 1200 24th Avenue SW, on the southwest corner of 24th Avenue SW and Lindsey Street in Norman, Oklahoma. This meeting is being held to provide information and to receive input from citizens and property owners. The Norman City Council is currently considering inclusion of the Lindsey Street Project in a potential Bond Election which could be held in June, 2012.

The City of Norman has hired the local design team of Cabbiness Engineering and Garver, LLC to develop a conceptual plan for the Lindsey Street corridor between Berry Road and Interstate 35. As part of their services, the Cabbiness/Garver team will host this public forum along with city staff to provide citizens an opportunity to ask questions and to make comments or recommendations regarding the proposed project. Please contact Mr. David Riesland, Assistant City Traffic Engineer, at 405-366-5453 if you have additional questions.
