Traffic in both the north and southbound lanes of Berry Road and the west side of the Kansas Street-Berry Road intersection have been diverted due to an emergency University of Oklahoma non potable water main break. Barricades are in place to direct the traveling public. The physical closure of Berry is between Kansas and Nebraska.

Recommended detour will be Acres Street, Flood Avenue and Kansas Street.

Questions should be directed to Jason Hancock, Utility Analyst for the University of Oklahoma, at 325-9100.

Please let me know if you have any questions or need any additional information.
