On Tuesday July 16, 2013, Wildcat Construction will be repairing the pothole in the bridge deck of the Indian Hills Road Bridge over Interstate 35. With both lanes of the bridge needing repairs, the contractor will use flagmen to stop and direct traffic across the bridge. Only one lane of the bridge will be closed at a time. The temporary lane closures should be complete before morning peak traffic begins on Wednesday July 17, 2013. The Oklahoma Department of Transportation has contracted Engineering Services and Testing(EST) to administer the contract on behalf of the City of Norman. The prime contractor is Wildcat Construction of Topeka, Kansas.

Additional questions may be directed to Mr. Josh Malwick, City of Norman Capital Projects Engineer, at (405)366-5454.
