Subject: PRESS RELEASE 03/31/15 - Spring Clean Up REVISED

PRESS RELEASE

City of Norman
201 West Gray
Norman, Oklahoma 73069

For Immediate Release: March 31, 2015

Contact: Sanitation Department, (405) 329-1023

****Correction on Commercial Construction Debris****

SPRING CLEAN UP

The following are the dates for the City of Norman Residential Spring Clean-Up:

April 4	Customers who have Monday polycart service
April 11	Customers who have Tuesday polycart service
April 18	Customers who have Wednesday polycart service
April 25	Customers who have Thursday polycart service
May 2	Customers who have Friday polycart service

Items must be out by 7:30 a.m. on designated Saturday.

The above schedule also applies to rural customers; however, rural customers need to call Sanitation at (405) 329-1023 to schedule an appointment prior to April 4th.

Items should not be placed at the curb earlier than one week before schedule pick up date; this could result in a City of Norman Code violation, and a fine can and will be issued to the violator.

Yard waste is not collected as spring clean-up items. Yard waste that meet size requirements can be taken to the Compost Facility, located at 398 Bratcher Miner Road. Larger limbs and trucks can be taken to the Transfer Station, located at 3901 S. Chautaugua. Other items not collected may include: remodeling or demolition debris, such as broken concrete, bricks, lumber, sheetrock, shingles or junk cars; hazardous waste, such as tires, batteries, paints, refrigerators or any items with Freon. Any items containing Freon must have the Freon properly captured by a certified technician. Only with the proper tag, identifying that the Freon has been removed, will the items be accepted.

Polycarts, wagons, wheelbarrows, etc., are not to be used as containers for clean-up items.

The Transfer Station will be open and free on these Saturdays for any Norman sanitation customer who wishes to haul their own. Remember to take a current utility bill when you go or have a driver's license with a Norman address.

Commercial Construction Debris is not considered part of the Spring cleanup; however, it will be accepted at the Transfer Station at the normal gate rate.

For Norman residents in rural areas with City of Norman trash service, there will also be containers set up to dispose of items on Saturday, April 11th at American Legion (north of Hwy 9 on 156th Avenue NE) and Denver Corner (10808 E. Alameda). Proof of residency, either with a City of Norman utility bill or current driver's license, is required.
