The City of Norman Department of Planning and Community Development is providing a public information program pertaining to the City's adoption of the 2009 edition of the International Residential Code (IRC) as the governing standard for residential construction within the City. The 2009 edition of the IRC (with amendments) was adopted by the state of Oklahoma Uniform Building Code Commission in 2011.

The program will occur in the Multipurpose Room, 201 West Gray Street, City of Norman Municipal Office Complex, on Thursday evening, February 16, 2012 from 6 to 8 pm.

The program will include a brief introduction to the code followed by a summary of significant changes and amendments that were adopted by the state or that are being proposed by the City of Norman.

It is hoped that any person interested in the residential building code will attend the meeting. A handout titled, "Summary of Significant Changes to the 2009 International Residential Code", will be provided.

Please contact the City's Development Services staff at 405-366-5339 if you have any questions.
