## Center City Vision Steering Committee

On January 21, 2014, the Norman City Council approved a Memo of Understanding (MOU) between Center City Vision Project partners the City of Norman and the University of Oklahoma. The MOU establishes that the Center City Vision Project will be governed by a Steering Committee, which also includes an Executive Steering Committee, as described below.

**4. Governance Structure and Reporting.** The Plan from this Project will be generated and recommended through a Steering Committee. The Steering Committee shall be recommended by the Mayor and appointed by the City Council with the advice and consent of the University of Oklahoma. It is acknowledged that the Steering Committee recommendations were approved by City Council on December 10, 2013. Any consultant hired for the project will report to the Steering Committee.

An Executive Subcommittee of the Steering Committee shall be comprised of one representative from each Participating Organization, and one citizen representative chosen jointly by the Participating Organizations. The Executive Subcommittee shall be responsible for administering the Project, developing and recommending meeting schedules, processes and procedures for the timely and efficient operation of the Steering Committee. The Executive Subcommittee shall address issues such as, but not be limited to: type of meetings, number of public forums, and format and duration of input from interested parties. The Executive Committee's recommendations will be submitted to the Steering Committee for final review and approval. While, as a recommending body, the Steering Committee is not subject to the Oklahoma Open Meetings Act, its meetings will nevertheless be preceded by posted meeting dates and times and will be open to the public in accordance with Open Meetings Act procedures.

On December 10, 2013 Norman City Council approved the following recommendations for members of the Center City Vision Steering Committee:
