ADDITIONAL EMPLOYMENT, EXPERIENCE OR EDUCATIONAL INFORMATION YOU FEEL IS RELEVANT:

In my job, I look at a lot of data, do a lot of research, think about the long term consequences of code changes, and do a lot of testing.

EXPLAIN WHY YOU ARE INTERESTED IN SERVING AS COUNCILMEMBER FOR WARD 2: FEEL FREE TO ATTACH ADDITIONAL INFORMATION IF NEEDED.

When I attended the candidate forum earlier this year, I really liked David Perry's responses. I was looking forward to him being ward 2's new CM and thought that he would represent my interests quite well.

I've never sought or held any office before, and I may not be the best person for this one, but I felt that I needed to apply.

The way I approach life and work problems is by gathering as much information as possible in order to make the best decision possible at the time.

Usually, the information is incomplete and the initial decision results in a less than optimal solution. As additional information is gained, better solutions result. Small, iterative adjustments based on current data makes for a more stable solution and while the path may be longer, most are more comfortable with the process.
