

Water's Worth It Poster Contest

The Environmental Control Advisory Board sponsors a Water's Worth It Poster Contest for elementary aged students. The contest teaches kindergarten through fifth-grade students across the city about sustainable conservation practices followed by the Poster Contest Art show during Norman's ArtWalk. The Art Show displays all the submissions from the 2019 Water's Worth It Poster Contest. The Grand Prize Winner of the poster contest has their design put on the t-shirts for the Earth Day Festival.
