Additional Information

---

---

---

The Permittee will, without further order, erect and maintain all barricades, lights, and traffic control devices needed, and will notify the Traffic Control Division at 329-0258 and Engineering Division at 366-5452 two (2) working days in advance for permission to close any street or alley. The Permittee shall maintain a copy of the permit and standards or approved plans at the jobsite during construction. The Permittee shall notify all utility companies prior to beginning any excavation, giving location and time of excavation.

I hereby agree to all of the terms and conditions set forth above and agree to notify the Traffic Control Division and Engineering Department two (2) working days immediately preceding the date work will commence or recommence after a stoppage.
