

The Swap Shop

At the Household Hazardous Waste Facility, we're committed to environmental protection and supporting our community in every possible way. One of our initiatives is the Swap Shop, where you can contribute and benefit. Requesting a Swap Shop appointment is as straightforward as scheduling a disposal appointment, and it follows the same process.

Items brought to our facility that are still in usable condition are carefully cleaned and placed in the Swap Shop. To qualify for inclusion, these items must meet four criteria: they should have containers in good condition, retain all of their labels, contain enough product for usability, and not be expired, recalled, or banned. If an item meets all these requirements, it undergoes cleanup, gets recorded in our system, and is made available to the public by appointment.

Please be aware that Swap Shop appointments are distinct from disposal appointments and must be scheduled separately.
