

City of Norman Development Services Division Automated Phone Line System Type Codes

The phone number to the automated phone line system remains 405-366-5333; however, the system works a bit differently. Rather than entering a “telephone access code” this system will prompt you, “Please enter your authorization code”. Your authorization code is the 4-digit year of your permit number and the last 5 numbers of your permit number. Below are examples:

Application Number: 23 – 00000002 The authorization code would be 2023 00002

Application Number: 23 – 00000745 The authorization code would be 2023 00745

Application Number: 22 – 00002190 The authorization code would be 2022 02190
